# STAY TILL THE END

---

## PART 1: AND THEN SOME

### INTRODUCTION

In Luke 21, Jesus shares about things to come. Part of his message is for his followers to be prepared to persevere and learn the value having some grit. We tend to check out at the first hint of pain, but Jesus wants us to experience something more, something we will only experience if we stay till the end.

### DISCUSSION QUESTIONS

1. We seek balance in life, but grit requires “all in” commitment. What are some areas of your life that do require balance? Which require grit?
2. How does looking to Jesus give you that kind of commitment?
3. Give till it hurts, and then some. Why is it important to see pain as a green light instead of a red light?

### MOVING FORWARD

1. God isn't after our money. He is after our hearts. Why is this message good news to you personally?
2. Red Rock is growing and God is doing something special here. But it's going to require more of us giving till it hurts, and then some. In what ways are you being called to increase your commitment and sacrifice at Red Rock?
3. Is there anything that the group can do to support you?
